

The EFMS Choral Programme

The Early Music Choirs programme was established in 2016 in response to demand from singers for opportunities to sing Early Music on a regular basis. Requests from choristers whose choirs don't sing Renaissance and Baroque music, and others looking to join a choir that specialised in music of these periods suggested that there was a vacuum to fill.

Working through a monthly workshop rehearsal, with different groups and areas of focus in morning and afternoon sessions, the programme has attracted singers from far and wide. The **EMFS Choir** for singers with some choral experience and basic sight-reading skills meets after lunch and the **EMFS Advanced Choir**, for singers with wide choral experience and the reading and musicianship skills to work at a faster rate, meets in the morning. A check list is available on the website www.emfscotland.org.uk to assist people in deciding which group might be most appropriate for them.

Singers may sign-up for the entire term of rehearsals or just take part in individual sessions. Those in the Advanced Choir may opt to sign up for the afternoon also so that they can enjoy the music that the EMFS Choir is working on.

The pattern of three meetings per term enables music to be mastered and questions of style, performance practice and context for music by, among others, Palestrina, Tallis, Byrd, Monteverdi, Purcell, and even Mozart to be considered. Preparing music without the pressure of an impending performance continues to be a refreshing and rewarding experience allowing great flexibility in music selection and preparation for all concerned.

Spring 2018 Programme

EMFS Choir Choral music of Michael Haydn

Nowadays Michael Haydn is thought of as either the younger brother of Joseph Haydn or a friend of Mozart. However, in his own day and throughout the 19th Century he was revered as a major figure in Austro-German choral music. His numerous works were widely performed and exerted a strong influence on later generations of composers.

EMFS Advanced Choir The Lamentations of Jeremiah by Thomas Tallis

Rightly hailed as one of the high-points of Tudor music, Tallis's Lamentations set texts for Maundy Thursday Matins. Following custom, he also sets the announcements, the Hebrew letters which separate the verses, and the refrain 'Jerusalem, Jerusalem...' in music that is at once unique and timeless.
